RESPONSE

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This is in response to the Office Action mailed on November 18, 2003.

The Office Action mailed on November 18, 2003 includes an election of species requirement. According to the Office Action on page 2: "Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of solid surfactant, as in an example, even though this requirement is traversed."

It is understood that the Office Action is requesting an election of an example. The request for an election of "solid surfactant" does not make sense. It is pointed out that the claims are directed at a solid detergent composition and a method for solidifying a detergent composition.

Nevertheless, in order to expedite examination, Example 1 is hereby elected, with traverse. The traversal is on the grounds that a request for an election of species has not been

appropriately made, and no justification has been provided for requiring an election of species.

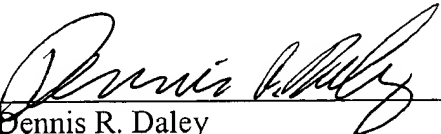

In any event, it is understood that once Example 1 has been searched, the Examiner will extend the search to the remaining species of the claims.

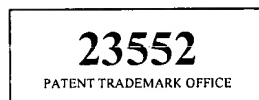

It is believed that this application is in condition for examination. Early notice to this effect is earnestly solicited.

Respectfully submitted,

MERCHANT & GOULD P.C.  
P.O. Box 2903  
Minneapolis, MN 55402-0903
